Experience

Outright Solutions Nepal (OSON)
Kathmandu, Nepal

Front End Developer
Present

- Implemented Google **reCAPTCHA** verification in forms, enhancing security and ensuring user authentication.
- Developed a "**Know Your Use**r" (KYU) feature, enabling clients to collect user data effectively, leading to improved business insights and growth.
- **Implemented** a website platform for conducting surveys and analyzing data, streamlining data collection and providing actionable insights for better decision-making.
- Achieved a **40%** reduction in application bugs by refactoring existing code with enhanced React.js components.
- Handled **30+** API integrations for various applications, ensuring seamless data exchange across platforms.
- Created smooth transitions and animations using **Tailwind** CSS and **React-Animation** Libraries, delivering a seamless and visually appealing user experience.
- Streamlined development process, increasing deployment frequency by **14**% through modular and reusable code design.
- Improved application speed by **30**% using advanced debugging techniques, resulting in faster user experience.

Remote Freelancer
Nepal

React Developer (Next.js)
05/2024 - Present

- Elevated client satisfaction scores by **40**% by implementing user-friendly interfaces and real-time feedback systems.
- Improved application loading times by **30%**, leading to an increase in user retention and repeat visits.
- Designed and developed responsive and visually appealing user interface using **React**
- Leveraged **component-based** architecture in React to create modular and reusable code structure
- Utilized media queries and responsive frameworks such as **Bootstrap**, **Tailwind** CSS for consistent styling
- Implemented client-side routing using **React Router** for seamless navigation within single-page application
- Utilized version control system such as Git for collaborative development and code management
- Implemented state management and data flow to ensure efficient and scalable applications using **Redux**
- Integrated frontend components with backend **APIs** to fetch and display dynamic data
- **Engaged** in self-directed learning to explore new libraries, tools such as **Nextjs** and methodologies to meet client's requirements
- **Collaborated** with clients to understand project requirements, goals and specification

Summary

Dynamic and dedicated React Developer with 1 year of experience and a strong focus on creating user-centric and efficient web applications. With extensive experience in integrating APIs and enhancing user interfaces using **React** or Next.js, consistently delivers solutions that improve performance and user satisfaction. Committed to leveraging cutting-edge technologies like Tailwind CSS, Redux, and TypeScript, is eager to contribute to projects that value innovation and user experience.
